## Make your honeymoon a mini-moon

Picture a honeymoon destination, and you'll probably think of white-sand beaches, warm breezes and crystal-clear ocean waves. And while we offer plenty of chances for you to experience a traditional tropical honeymoon (see pages 18–23), there's a new trend popping up: mini-moons.

As the name suggests, a mini-moon offers a chance for newlyweds to get away together, but on a smaller scale. Instead of traveling for a week or two, you might just take a long weekend. Or in lieu of flying to Europe, a cozy cabin in the Adirondacks might be your destination. Whether couples are trying to watch their budget or just prefer to stay closer to home, taking a mini honeymoon is becoming more and more popular. What are the benefits of a shorter post-wedding trip?

- **Budget-friendly:** A close-to-home destination, driving instead of flying and fewer days mean a mini-moon can be a great option for those looking to save a little cash (and who wouldn't after their wedding?). Plus, you can still experience some time with your new spouse while saving money for a bigger trip down the road.

- **Easier to plan:** When you don't have to worry about flights, multiple reservations and schedules, you can focus more on the trip itself — and get a much-needed break from the stress of wedding planning! And when you're spending less time traveling, you'll get to spend more time enjoying yourself.
- **Less vacation time:** If you're worried about taking time off from jobs or other obligations, a shorter honeymoon is much easier to fit into your schedule.
- **Chance to explore your own backyard:** A mini-moon can mean a trip that's a short drive away or even a stay at a luxury hotel in your own city. You'll finally get an opportunity to enjoy the nearby sights and attractions you've always known about but never tried.
